TRAINING / COURSES

CIIIT-Mechatronics and internet of things certificate course

I base-Python

PROJECTS

JARVIS

Wani   2023 - 2024

A voice based desktop assistant which make it easy to use computer. It also has face recognition to ensure security.

- Authenticates owner's face.
- Take voice based commands from user
- Understands query and performs the task like searching wikipedia, opening applications, telling time, etc.
- Speaks back the information.
- Also a feature of virtual mouse is provided

EDUCATION

Government engineering Chandrapur   10/2024 - 08/2027
Electronics and telecommunication engineering (Gondwana University, Gadchiroli)

Sushganga Polytechnic (Msbte)   2021 - 2024
Diploma of Education, Computer Science

Sanskar Bharati Public school, Warora(CBSE)   2012 - 2021
AISSE

DESCRIPTION

Motivated Electronics and Telecommunication major with a versatile skillset in Python, C, and Embedded C. Proven track record of transforming concepts into working prototypes, including a JARVIS AI Assistant and an analog AM Radio Receiver. Combines technical proficiency in IoT with adaptive problem-solving skills to deliver results in fast-paced engineering environments; currently studying at GCoE Chandrapur.

SKILLS

IoT · Embedded C · Python · Circuit design · Signal processing · Deep thinking · Problem Solving

📄 PROJECTS

AM radio reciever

Chandrapur   08/2025 - 12/2025

Using basic components, it is a
tunable radio based on amplitude
modulation technique.

- Successfully distinguish between
  a wide range of AM frequency
  bands and provide an audio
  output.
